

# Ashes to Skies

## VERSE 1

*G/B*            *C*    *Em*                            *D*  
I feel the weight,    the remnants of my past  
*G/B*                            *C*    *Em*                            *D*  
How could you make    redemption from the dust  
*G/B*            *C*            *Em*                            *D*  
But You came in with unexpected mercy  
*G/B*    *C*                            *Em*                            *D*  
You met every fear by the power of Your name

## CHORUS

*C*                            *G*            *D*  
Oh what a gracious Father  
*C*                            *G*            *D*  
You made these ruins an altar  
*Am*    *Em*  
Only grace could build cathedrals  
*D*    *Am*  
Out of bones that have been raised  
*Em*                            *D*    *C*  
Your honor pouring out into this vessel made of clay  
*G*  
For your glory we will rise  
*D*    *C*  
From the ashes to the skies  
*G*  
For your glory we will rise  
*D*  
From the ashes to the skies

## TURN

Refined by flames,    consuming every part

You changed my name,    that's where my story starts  
                  *G*                    *C*                    *Em*                    *D*  
When You came in with unexpected mercy  
                  *G/B*   *C*                    *Em*                    *D*  
You wiped every tear and wrapped me in Your arms
